We interpret and translate the dream of our customers ... working with passion in every project. Our know-how is priceless; everything we do is manufactured by experts in ancient technique almost lost in our days. The special finishes we use like oil, bee wax & patina enhance the beauty of everything we do.

Bell

VITTORIA LIGHT FIXTURES

By Luminescence: the art of lighting

Our light fixtures are hand-made by metal craftsmen who, with many years of experience in the company, have grown to become experts in the luxury transformation of metal using European millenary techniques. Manual processes such as forging, embossing, casting, and polishing were used to achieve the artwork. The materials were mostly aluminum, followed by iron.
